Summary

AI/ML Engineer | Computer Vision | LLM Systems

Computer Science undergraduate focused on building end-to-end AI systems across machine learning, NLP, computer vision, and LLM-powered automation. Experienced in developing intelligent workflows, data-driven insight systems, and interactive AI applications using Python, Streamlit, and modern ML frameworks. Strong interest in applied AI, real-world deployment, and scalable problem-solving through practical engineering.

Technical Skills

Core Skills:

- Python, Git
- Data Analysis & Visualization
- Machine Learning & Feature Engineering
- Deep Learning Model Deployment

Libraries & Tools:

- Pandas, NumPy
- Matplotlib, Scikit-learn
- OpenCV

AI Systems & Training:

- LLM-powered workflows & prompt engineering
- API integration
- FineTuning LLMs
- Model evaluation

Projects

Multimodal Thermal-Optical Image Enhancement System | Computer Vision | Python

[RESEARCH BASED]

- Developing a multimodal image fusion pipeline to enhance low-resolution thermal imagery using aligned RGB images.
- Worked on super-resolution and perceptual enhancement while preserving thermal integrity.
- Evaluated trade-offs in real-world noisy imaging conditions, focusing on practical deployment constraints.

Chat Behavioral Insight System | NLP, Data Analysis | Python

- Built an NLP-driven system to analyze large-scale conversational data and extract behavioral and engagement patterns.
- Designed preprocessing, feature extraction, and insight-generation pipelines for unstructured chat data.
- Generated visual and statistical summaries to support decision-making and pattern discovery.

WhatsApp Chat Analyzer | Data Analytics | Python, Streamlit

- Developed an interactive analysis system to extract insights from exported WhatsApp chat data.
- Implemented message frequency analysis, user activity tracking, word trends, emoji usage, and engagement pattern detection.
- Built a real-time Streamlit dashboard for dynamic visualization and conversational data exploration.

Achievements & Learning

- Winner / Top Performer in multiple national-level hackathons, including HackSagon IITM, and an Innovation Showcase focused on applied AI systems.
- Earned Kaggle certifications in Python, Pandas, Data Visualization, and Machine Learning (Intro & Intermediate), demonstrating hands-on applied ML proficiency.

Education

Bachelor of Technology in Computer Science (3rd Year)

Institute of Technology and Management, Gwalior
