Summary

Applied AI and Software Engineering student focused on building **Python-based intelligent systems** that automate workflows and **support decision-making**. Hands-on experience with applied **machine learning, NLP-based behavioral analysis, LLM-powered systems**, and rapid prototyping through hackathons. Interested in building scalable, real-world AI systems at the intersection of software engineering and applied ML.

Technical Skills

Languages & Systems

- Python, SQL, Linux
- APIs&backend integration
- SQL/SQLite
- Linux(CLI,scripting)
- Git

AI / ML (Applied)

- Machine Learning fundamentals
- NLP (applied)
- Prompt engineering, RAG

Automation & Backend

- Selenium / Playwright
- API integration
- Flask / FlaskAPI (basics)

Data & Visualization

- Pandas, NumPy, Matplotlib
- Flutter & kotlin (MVP-level)

Projects

Applied Thermal-Optical Image Enhancement System | Computer Vision (Applied ML) | Python

- Built an applied CV system to enhance low-resolution thermal images using aligned optical references.
- Explored image fusion and super-resolution pipelines, balancing perceptual clarity and thermal fidelity.
- Evaluated outputs to understand trade-offs in multimodal, real-world imaging data.

AI Behavioral Pattern Analysis Bot | Applied NLP | Python, LLMs

- Built an applied CV system to enhance low-resolution thermal images using aligned optical references.
- Explored image fusion and super-resolution pipelines, balancing perceptual clarity and thermal fidelity.
- Evaluated outputs to understand trade-offs in multimodal, real-world imaging data.

Achievements & Learning

- Winner / Top Performer in multiple national-level hackathons, including TechBlitz Kronos, HackSagon IITM, and an Innovation Showcase focused on applied AI systems.
- Earned Kaggle certifications in Python, Pandas, Data Visualization, and Machine Learning (Intro & Intermediate), demonstrating hands-on applied ML proficiency.
- Selected participant in Google Cloud Summer School and completed the Google Arcade Program, gaining exposure to cloud-based tools and infrastructure.

Education

Institute of technology and Management, Gwalior
Bachelor of Technology in Computer Science (3rd Year)
